## PROFILE SUMMARY

- Frontend Engineer with **3+ years** of experience specializing in building scalable, production-grade web applications using React.js, Next.js and TypeScript for enterprise and B2B SaaS platforms.
- Led end-to-end development of high-performance, accessible and SEO-optimized applications, while reducing system errors by 20% and improving load performance by up to 30%.
- Strong ownership mindset with proven experience in technical leadership, mentoring developers, conducting interviews, & enforcing clean architecture & best coding practices.
- Business-focused problem solver with expertise in state management, API development, system design and performance optimization, consistently aligning engineering outcomes with product and business goals.

## WORK EXPERIENCE

Baseel Partners, London, UK (Remote)

**Lead Software Engineer | Oct 2024 – Present**

- Architected and maintained two high-performance client-facing platforms using Next.js, reduced system errors by 20% and improving reliability.
- Led technical interviews for both entry-level and experienced candidates, strengthened hiring quality for internship and full-time roles.
- Mentored and upskilled 4 developers (2 interns, 2 junior engineers) in JavaScript, TypeScript, React.js and Next.js, accelerated team productivity and code quality.
- Drove architectural enhancements & codebase standardization initiatives, reduced development turnaround time & improved deployment efficiency across projects.
- Instituted best practices for code reviews, modular design and performance monitoring, led reduction in post-release defects and improved system stability.

**Software Engineer | Jun 2023 – Sep 2024**

- Spearheaded the development of scalable, responsive web applications using React.js, Next.js.
- Collaborated cross-functionally with product teams to design user-centric solutions, increased customer retention by 20%.
- Optimized database performance through efficient SQL queries and caching strategies, reduced application load time by 10%.

## PROJECTS

**Cognition | Oct 2025 – Present**

- Architected and launched a scalable e-learning platform, enhanced learner engagement and improved overall learning outcomes by 40%.
- Designed and implemented real-time analytics dashboards using advanced data visualization libraries, boosted progress tracking efficiency by 20%.

**Greenrhea | Jan 2025 – Sep 2025**

- Engineered a data-driven B2B SaaS platform to monitor environmental and social controversies, enabled businesses to make informed ESG decisions.
- Implemented robust features including Role-Based Access Control (RBAC) and automated report generation to deliver accurate ESG scoring and insights.

**NeoSmile | Apr 2024 – Dec 2024**

- Led the end-to-end development of an appointment booking platform using Next.js, increased patient experience and engagement by 35%.
- Optimized application performance by designing a normalized, scalable database schema and integrating TanStack Query, reduced load times by 30%.

**Certify | Jun 2023 – Mar 2024**

- Revitalized a certification platform for the World Happiness Foundation, streamlined assessment and certification workflow to improve efficiency by 40%.
- Integrated Stripe payment gateway to enable secure, seamless transactions, increased payment success rates by 20%.

## CORE COMPETENCIES

Frontend Development

React.js & Next.js Architecture

Node.js & API Development

TypeScript & JavaScript (ES6+)

State Management (Redux / TanStack Query)

System Design & Performance Optimization

Technical Leadership & Mentoring

## TECHNICAL SKILLS

**Programming Languages:**

JavaScript (ES6+), TypeScript

**Frontend Technologies:** React.js,

Next.js, Redux, HTML5, CSS3,

Tailwind CSS

**Core Computer Science:** Data

Structures & Algorithms (DSA),

Algorithms, System Design

**Tools & Version Control:** Git

## INTERNSHIP

Enterprise Minds Inc, Puducherry, India

**Web Development Intern | Jan 2023 – Apr 2023**

- Engineered a scalable talent acquisition platform using React.js, refactoring and optimizing 5,000+ lines of code; collaborated with senior engineers to deliver new features and performance enhancements, improved user experience by 20% and overall efficiency by 35%.
- Strengthened application security by implementing Multi-Factor Authentication (MFA), while increasing protection by 50% and leveraged Redux for advanced state management to enhance application performance and scalability.

## EDUCATION

**Master of Computer Application — Computer Science**

Pondicherry University, Puducherry, India

**2021 - 2023**

**Bachelor of Computer Application — Computer Science**

Siliguri Institute of Technology, West Bengal, India

**2015 - 2018**
